

TOWN OF JACKSON TOWN COUNCIL AGENDA DOCUMENTATION

PREPARATION DATE: SEPTEMBER 27, 2018
MEETING DATE: OCTOBER 1, 2018

SUBMITTING DEPARTMENT: PLANNING
DEPARTMENT DIRECTOR: TYLER SINCLAIR
PRESENTER: TYLER VALENTINE

SUBJECT: **ITEM P18-245:** REQUEST FOR FINAL PLAT APPROVAL OF A 2-LOT SUBDIVISION FOR THE PROPERTY LOCATED AT 660 W. BROADWAY AVENUE.

APPLICANT: Y2 CONSULTANTS, ROBERT INFANGER

OWNER: DAVID TIBBITTS

STATEMENT/PURPOSE

The applicant is requesting Final Plat approval of a 2-lot subdivision for the property addressed as 660 W. Broadway Avenue.

APPLICABLE REGULATIONS

Section 8.5.3 Subdivision Plat

LOCATION

The property is currently described as PT. SE1/4NW1/4, SEC 33, TWP. 41, RNG. 116., and is addressed as 660 W. Broadway Avenue. An aerial photo and zoning map are shown on the following page:

BACKGROUND

The subject property is zoned Commercial Residential-3 (CR-3), is located in the Natural Resource Overlay (NRO) and is 1.16 acres (50,530 SF) in size. The properties to the East and West are zoned CR-3, the property to the North is zoned Neighborhood Low Density-3 (NL-3) and property to the South is zoned Public/Semi-Public (P/SP). The site is currently vacant with no structures and fronts Broadway Avenue to the north and Karns Meadow Drive to the east. Access is currently taken from Karns Meadow Drive via dirt driveway. The site's use historically has been storage of vehicles, trailers and equipment related to Jackson Hole White Water which is located one property to the east across Karns Meadow Drive.

On March 9, 2019 the applicant completed their Environmental Analysis (EA) (P18-034) for a proposed lot split and future uses. Wildlife and habitat mitigation will be met at a future date as part of the Conditional Use Permit (CUP) for the use of the eastern lot. Three conditions of approval were placed on the EA:

1. As part of the CUP submittal and prior to issuance of any building or site disturbance related permits, the applicant shall provide a landscape plan prepared and stamped by a Wyoming Landscape Architect that shows vegetation types that are not palatable to mule deer. In addition, the applicant shall provide a landscape plan that is conducive to wildlife movement through the site.
2. As part of the CUP submittal and prior to issuance of any building or site disturbance related permits, the applicant shall remove the existing fencing along the southern property line and replace it with compliant fencing along the southern areas of the site with retaining walls 6' or higher.
3. As part of the CUP submittal and prior to issuance of any building or site disturbance related permits, the applicant shall provide a Habitat Enhancement/Mitigation plan which provides either on-site or off-site mitigation at a 2:1 ratio for the areas of the site, specifically the areas with Cottonwood trees, which were willfully disturbed. The 2:1 will be based upon the area of the trees shown in the 1999 aerial photo.

On May 7, 2018 the Town Council reviewed and approved a Development Plan (P17-122) for a 2-lot split which identified the proposed lot configuration, lot sizes, access and building envelope. One condition of approval was placed on the Development Plan:

1. Any future use of Lot 1 other than parking may trigger additional environmental review and analysis.

PROJECT DESCRIPTION

The proposed application is for Final Plat approval for the Tibbitts Subdivision. The plat will result in two lots, 1 & 2, configured east and west of each other. Lot 1 (west) is 0.52 acres and Lot 2 is 0.64 acres. A 30' wide access easement starting from Karns Meadow Dive crosses Lot 2 to serve Lot 1. No access will be taken from West Broadway.

STAFF ANALYSIS

Staff finds that the proposed plat is in conformance with all previously approved permits (Development Plan Permit P17-122) and on the condition that all requirements in the departmental reviews are met, it presents no significant issues.

According to Division 7.5, non-residential subdivisions are not required to dedicate lands for school and park development thus the proposed subdivision will not result in any such exaction fees.

This subdivision is exempt from an Affordable Workforce Housing Standards pursuant to Section 6.3.2.A.2 – Applicability which states “A non-building physical development, development option, or subdivision is not

employee generating development and not subject to this Division...” Affordable housing will be applied as part of the CUP review on individual lots.

Tyler,

Per comments from the Housing Department, our response is that the subdivision is not subject to the Affordable Workforce Housing Standards under Section 6.3.2.A.2. It is the applicant's understanding that Housing Requirements will be fulfilled during the CUP-DEV process.

SUBDIVISION IMPROVEMENT AGREEMENT

THIS AGREEMENT dated this _____ day of June, 2018 by and between David Tibbitts, hereinafter referred to as "Subdivider", and the TOWN OF JACKSON, a municipal corporation of the State of Wyoming, hereinafter referred to as the "Town", provides as follows:

WHEREAS, Subdivider submitted a Final Development Plan for a 2-Lot Subdivision, which was approved by Town Council on May 7th, 2018 subject to execution of this Agreement and submission of a Final Plat after completion of a survey; and

WHEREAS, The Subdivider is required to construct certain public improvements (the "Improvements") as a condition of the approval of the final plat and associated Development Plan; and

WHEREAS, the Town of Jackson Land Development Regulations require that a subdivision Agreement for public and private improvements be executed by the Subdivider and the Town and recorded in the Office of the Teton County Clerk and Recorder; and

WHEREAS, the Town Council approves of the terms and conditions of this Agreement for this Final Development Plan designated as the Tibbitts Highwater Addition to the Town of Jackson.

NOW, THEREFORE, IT IS HEREBY AGREED that for and in consideration of the aforesaid premises and the sum of Ten Dollars (\$10.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, paid by each of the said parties to the other, Subdivider on its own behalf or any successor in interest or assign, and the Town do mutually covenant and agree as follows:

1. SUBDIVIDER TO COMPLY:

Subdivider shall comply with all improvement requirements contained in Section 7.2.2.A.1 A. of the Town of Jackson Land Development Regulations, the Development Plan approved by Town Council on May 7, 2018 and subdivision improvement plans and specifications retained on file in the office of the Town Engineer and the Planning Director, and the requirements of the Town Planning and Zoning Commission and Town Council for this subdivision. Improvements shall be engineered, designed, constructed, and installed solely at Subdivider's own cost and expense except as noted below in Section 15 regarding over-sizing of utilities.

2. DEVELOPMENT PLAN AND FINAL PLAT REQUIREMENTS INCORPORATED:

The requirements of the Town Council, as set forth in its approval of any required Final Development Plan, Conditional Use Permit, and Final Plat are hereby incorporated herein by reference as though fully set forth. Development and use of all land within the subdivision is

DRAFT

limited to that conveyed by the Final Plat and the Land Development Regulations of the Town of Jackson, as they may be amended from time to time.

3. APPROVED SUBDIVISION INFRASTRUCTURE IMPROVEMENT PLANS AND SPECIFICATIONS:

The subdivision infrastructure improvement plans and specifications filed by Subdivider or its agents, as approved by the Town Engineer and maintained on file in the office of the Town Engineer, and any revision of said improvement plans and specifications approved by said Town Engineer are hereby incorporated herein by reference as though fully set forth. All public improvement work required by Subdivider under this Agreement shall be in accordance with said improvement plans and specifications. No construction of required public or private improvements shall commence until after approval of a Final Development Plan and approval of all design and construction drawings by appropriate agencies.

The Subdivider, its contractors and subcontractors, shall follow all instructions received from the Town's inspectors. Prior to construction, the Subdivider or his engineer shall schedule a preconstruction meeting with Town Engineering at a mutually agreeable time and location with all parties concerned, including the Town staff, to review the program for the construction work.

4. ESTIMATED COST OF SUBDIVISION INFRASTRUCTURE IMPROVEMENTS AND SECURITY THEREFORE:

The list of improvements and the total cost of improvements required by this Agreement as estimated by a professional engineer licensed in the State of Wyoming on behalf of the Subdivider, and as approved by the Town Engineer, is attached hereto as Exhibit "A" and by this reference made a part hereof. Subdivider shall deposit with the Town, prior to filing of the Final Plat, an irrevocable letter of credit, or performance and payment bond, or funds in escrow, or other equivalent security or commitment approved by the Town Council. Such security shall be in the amount of 125% of the estimate approved by the Town Engineer and Planning Director.

5. ESTIMATED COST OF OTHER SUBDIVISION IMPROVEMENTS AND SECURITY THEREFORE:

There is no Affordable Housing Obligation because the subdivision does not contemplate a residential component.

6. UNDERGROUND ELECTRICAL POWER, TELEPHONE, TELEGRAPH, CABLE TELEVISION, AND GAS FACILITIES:

All electrical power, telephone and telegraph communication, cable television, and gas facilities within the subdivision shall be installed underground, except that above-ground facilities necessary to serve underground facilities, other installation of peripheral overhead electrical transmission and distribution feeder lines, or other installation of either temporary or peripheral overhead communications, distance, trunk, or feeder lines may be allowed. Subdivider understands and agrees that any and all said facilities that are to be constructed within or under

any street improvements shall be in place prior to the construction of the surface street improvements. Subdivider affirms that the public utility companies, including the cable television company enfranchised by the Town, providing the said services and facilities to and within the subdivision have been directly consulted by Subdivider through its officers, agents, or employees and that Subdivider is informed as to the approximate cost to Subdivider of the provision and installation of said facilities and services underground and that the requirements for said facilities have been considered in the preparation of the subdivision improvement plans.

7. EXACTIONS:

Subdivider shall pay exactions for the following purposes and in the following amounts to the Town prior to the filing of the Final Plat:

Parks Exactions:	\$ None
School Exaction:	\$ None
Affordable/Employee:	\$ None

8. TIME FOR COMPLETION:

Subdivider agrees to install all improvements as required and further agrees that all such work of improvements shall be fully completed within one year following the recordation of the Final Plat, unless said time upon written request of Subdivider made to the Town Engineer of the Town is extended by the Town, which extension shall not be unreasonably withheld.

9. WARRANTY:

All work and improvements required pursuant to this Agreement and the ordinances of the Town shall be subject to and shall carry a guarantee and warranty for all work and materials for a period of one (1) year from the date of acceptance, which shall be for the benefit of the Town and this obligation shall survive any release of security by the Town. The Subdivider shall post maintenance bonds or appropriate letters of credit to secure the warranties equal to 20% of the total estimated cost of construction.

10. LIABILITY:

Subdivider agrees to carry a comprehensive general liability policy with minimum limits of \$_____ for each occurrence and \$_____ annual aggregate for bodily injury and \$_____ for each occurrence and \$_____ annual aggregate for property damage or a combined single limit policy with minimum limits of \$_____ for each occurrence and \$_____ annual aggregate which includes coverage for manufacturer and contractors, independent contractors, products, completed operations, and personal injury. Subdivider also agrees to name the Town as an additional named insured as respects the contract, and a certificate of insurance covering these items shall be filed with the Town Engineer prior to the filing of the Final Plat.

11. PERFORMANCE TESTING AND INSPECTION:

Subdivider shall be required to obtain a Town approved State of Wyoming licensed engineer to perform and/or monitor all testing required per the Town standards.

Subdivider shall be responsible for obtaining all required Town permitting and abiding by the conditions set forth within same. Subdivider shall be required to complete all construction work and necessary performance tests on installed infrastructure per the existing Town standards. Subdivider shall be responsible for the preparation of daily inspection reports and tests results. This information shall be submitted to the Town Engineer. The Town shall have the right, but not the obligation, to be present at any and all such performance tests and to perform periodic observation of any and all phases of construction. Subdivider shall notify the Public Works Department prior to the commencement of any performance test or any placement of asphalt pavement or concrete curb and gutter and shall provide placement for a representative of the Town to be present at the test or placement.

12. RELEASE OF SECURITY:

A. Release. As improvements are completed, the Subdivider may submit a written request to the Town Engineer for a release of part or all of the guarantee. Upon inspection and approval, the Town Engineer shall release the requested amount of the guarantee. If the Town Engineer determines that any of the improvements are not constructed in substantial compliance with approved plans and specifications and/or requirements, the Town Engineer shall furnish the Subdivider a list of specific deficiencies and shall be entitled to withhold collateral sufficient to ensure compliance. If the Town Engineer determines that the Subdivider will not construct any or all of the improvements in accordance with all of the specifications and/or requirements, the Town Engineer shall draw and expend from the bond, letter of credit, deposit of collateral or other form of financial assurance, such funds as may be necessary to construct the improvements.

No implied certification of compliance. Release of the improvements guarantee does not constitute certification of compliance with the standards of these Land Development Regulations or any applicable code or other requirement or a release of the responsibility of the subdivider.

B. Acceptance by the Town

1. Prior to acceptance. The Town shall not have any responsibility with respect to any street, or other improvement, notwithstanding the use of the same by the public, unless the street or other improvement has been formally accepted by the Town.
2. Request for acceptance. Upon completion of the improvements, the subdivider may request, in writing, their acceptance by the Town. This request shall be accompanied by proof that there are no outstanding judgments or liens against the land upon which the public improvements are located.
3. Final inspection. Upon receipt of a written request for acceptance from the subdivider, the Town Engineer, and other appropriate government agencies will conduct a final inspection of the public and private improvements. The Town Engineer will furnish a written list of any deficiencies noted. The Town Engineer will

4. Record drawings. Prior to the acceptance of any completed improvements, record drawings and specifications for streets, water, sewer, drainage and other facilities must be submitted to the Town Engineer. RE: Tibbitts subdivision

Dear Tiffany,

I have reviewed the plat accompanying the above-referenced subdivision application. I would suggest the surveyor address the following items:

It appears that the "10' wide Mountain States Telephone" easement, and the "20' wide Lower Valley Energy" easement are centerlines, and should be noted as such.

Ties to corners of the Public Land Survey System are required, as well as to a tie to the Teton County control network.

"Forgoing" is better spelled foregoing. (Certificate of Owner)

This review of submitted information is for general compliance with the requirements of Teton County, Wyoming. No responsibility is assumed for the correctness of dimensions or calculations. This review only indicates that an examination of the exhibits has been made.

Sincerely,

Michael Quinn, PLS
Teton County Surveyor
