

START - ELECTRIC BUS PROGRAM  
Board of Directors Resolution

We, the START board of directors, are committed to reducing emissions from the transportation sector and improving air quality in Teton County, through the introduction of zero emission electric buses to the START bus fleet.

This program supports the Jackson/Teton County Comprehensive plan Common Value-Ecosystem Stewardship, sharing the vision to preserve and protect the area's ecosystem. Specifically, this program supports:

Section 2. Climate Sustainability through Energy Conservation and  
Principle 2.3 reduce energy consumption through transportation

In addition, this program establishes the goal to transition the START fleet to 40% electric by 2022.
