

START Bus On-Demand: this service provides free, on-demand transportation using smaller vehicles between the western boundary of Karns Meadow and the Town's eastern limits. Providing seamless public transport, riders will be able to schedule service through an app from their location to any destination in East Jackson including to START's transit hub at Miller Park for connection to commuter and local and Teton Village routes.

You can download the app:

[Download the app on the App Store](#)

[Download the app on Google Play](#)

Skiers in East Jackson, be aware that rides to the Village will now be via an On-Demand car to transfer to a bus at Miller Park.

START On Demand will replace the circulator routes in East Jackson, taking numerous large vehicles off small, neighborhood streets, and implementing a key element of START's broader Route Plan to operate fixed routes more efficiently and provide better service in the dispersed areas of East Jackson. The contractor providing START On Demand, Downtowner LLC, provides similar service in Aspen and North Lake Tahoe and is currently recruiting drivers.

The rider reservation app will be available to download in the coming weeks and riders can start booking and taking rides on November 27, 2021.

For more information please email info@startbus.com or call (307) 733-4521
